

mhin ehr – The only fully integrated electronic health record that comes pre-populated with patient information and provides seamless communication with healthcare providers. (Powered by Cerner)

features

- Inbox organizer for managing results, orders and messages
- Allergies, immunizations, medications, problems, and procedures management
- Multiple charting and documentation options – forms, notes, dictation
- More than 1,500 specialty-specific clinical templates
- ePrescribing with automated dosage and national standard drug content
- Scheduling module or integration with your practice management system
- Encounter summaries with comprehensive visit histories
- Clinical and administrative document imaging solution
- Advanced directives, release of information and patient education modules

benefits

- Improves care: Timely documentation, drug alerts, automatic order tracking
- Saves time: Fewer chart pulls and call backs, no more lost charts or illegible notes
- Saves money: Reduced transcription, fax, storage, mailing and paper costs

mhin ehr's unique advantages

- Fully populated with patient information since 1999
- Complete integration with the community health information exchange
- Seamless electronic communication with physicians and institutions
- Convenient, secure access – any time, any where
- No interface needed – it's fully integrated
- Professionally managed, state of the art data center
- Hassle-free maintenance and dedicated 24/7 help desk
- A local company committed to connecting healthcare in our community
