***mhin Mission Statement...***

To offer clinical information systems and services to help healthcare providers in the Michiana area build ***longitudinal, person-centered health records***. Our core applications provide an efficient way for clinicians and institutions to appropriately exchange information and facilitate ***high-quality, coordinated care***. The mhin network provides integrated, confidential, and ***secure access to patient information***.

***Why not join  
more than 500 Physicians  
and their Staffs.***
